

# Project WILD & Growing Up WILD

Hands-on, engaging workshop!

For early childhood educators to grade 12!

Learn how to use and adapt a resource full of ready to use lesson plans

Project WILD contains 121 complete lesson plans about wildlife and the environment that can be adapted for any age, grade or subject.

Growing Up WILD:  
Exploring Nature with  
Young Children for ages  
3-7 has 27 hands-on,  
nature based activities  
including art, crafts,  
music, conservation  
activities, reading  
(optional).

Growing Up WILD guides are an additional \$25.

SaskOutdoors encourages educators and people who participate in outdoor recreation to practice and teach environmental responsibility.
